INTERNSHIPS

JUNIPER NETWORKS | CLOUD COMPUTING INTERNSHIP (VIRTUAL)

8 Weeks

- Gained in-depth understanding of **cloud computing technologies**, including cloud architecture, virtualization, and networking.
- Explored various **cloud service models** (IaaS, PaaS, SaaS) and their real-world applications.
- Studied **cloud deployment models**, including public, private, and hybrid cloud solutions

CELONIS | PROCESS MINING INTERNSHIP (VIRTUAL)

- Gained hands-on experience in **process mining techniques** to analyze and optimize business operations.
- Utilized **Celonis Process Mining tools** to identify inefficiencies and bottlenecks in business workflows.
- Explored data-driven **decision-making strategies** to enhance operational efficiency.

GOOGLE DEVELOPER INTERNSHIP | APP DEVELOPMENT INTERNSHIP (VIRTUAL)

- Acquired foundational knowledge in **mobile and web application development** using Google technologies.
- Worked on enhancing and optimizing **application features** to improve performance and user experience.
- Explored **Google Cloud services** and **Firebase** for backend development and data management.

PROJECTS

REAL-TIME CHAT APPLICATION | FULL-STACK DEVELOPMENT WITH SOCKET.IO

- Developed a real-time chat application using Socket.io for seamless messaging.
- Implemented full-stack technologies including Node.js, Express, React, and MongoDB.
- Integrated authentication, real-time notifications, and a responsive UI for smooth user experience.
- Deployed the application to a cloud platform ensuring scalability and performance.

AI VIDEO GENERATOR | AI-POWERED VIDEO GENERATION TOOL

- Built an AI-driven video generator using React.js, Express.js, Node.js, GPTScript, and TailwindCSS.
- Integrated AI models to generate video content dynamically based on user inputs.
- Designed an intuitive user interface with a responsive and visually appealing layout.
- Implemented backend functionalities for processing video data and ensuring smooth performance.

EDUCATION

ITM UNIVERSE GWALIOR

BACHELOR OF TECHNOLOGY IN INFORMATION TECHNOLOGY

Expected june 2025

CGPA: 7.5 / 10

SKILLS

PROGRAMMING LANGUAGES

C • C++ • Java • Python (Basic) • JavaScript

DEVELOPMENT

HTML • CSS • React.js • Next.js • Express.js • Node.js • Tailwind.Css

DATABASE MANAGEMENT

SQL, MongoDB

CORE SUBJECT

Data Structure • OOP • Operating sys • Networking • DBMS

OTHERS

Git/Github • AWS • ChatGpt • Windows • Artificial Intelligence • VS code • Excel • Ms word

CORE COMPETENCIES

INTERESTS HOBBIES

CORE COMPETENCIES

- Analytical Thinking
- Problem Solving
- Creativity

INTERESTS HOBBIES

- Creative Problem Solving
- Tech Exploration Coding
- Cricket Enthusiast

CERTIFICATION

- AWS CloudFoundations Certification (Virtual) Completed AWS certification course with 20 hours of training.
- Infosys Springboard Java Certification
